

Postdoctoral position in computational and theoretical AMO Physics at the HCTPA (Haifa Research Center for Theoretical Physics and Astrophysics)

University of Haifa, Israel (IL)

<http://hctpa.haifa.ac.il/>

The HCTPA seeks to fill one postdoctoral position in computational and theoretical AMO physics to commence in the academic year 2021/2 (starting date is 1/OCT/2021 or a bit later):

The successful research fellow joining the center will work on the out-of-equilibrium dynamics of mixtures, impurities, and Bose-Einstein condensates.

The appointment is for 1+1 years pending a successful 1st year.

The salary is according to the University of Haifa post-doctorate scale.

The candidates should have a strong background and skills in computational and theoretical AMO physics and/or of Bose-Einstein condensates and ultra-cold quantum matter.

To apply, please send:

- An informative cover letter.
- CV + list of publications.
- The names and addresses of 3-4 referees.

For further information, please contact Prof. Ofir Alon (ofir@research.haifa.ac.il).
